Target NameSHBGOther NamesABP; SBP; TEBGAccession No.Swiss-Prot#: P04278 NCBI Gene ID: 6462Gene Accssion: NP_001031	nding
Other Names ABP; SBP; TEBG Accession No. Swiss-Prot#: P04278 NCBI Gene ID: 6462Gene Accssion: NP_001031	
Accession No. Swiss-Prot#: P04278 NCBI Gene ID: 6462Gene Accssion: NP_001031	
Uniprot P04278	
GenelD 6462;	
Concentration 1.8mg/ml	
Formulation Rabbit IgG in pH7.4 PBS, 0.05% NaN3, 40% Glycerol.	
Storage Store at -20°C	

Application Details

Immunohistochemistry: 1:25-1:100

Images

Immunohistochemical analysis of paraffin-embedded Human cervical cancer tissue using #37027 at dilution 1/20.

Immunohistochemical analysis of paraffin-embedded Human ovarian cancer tissue using #37027 at dilution 1/20.

Background

This gene encodes a steroid binding protein that was first described as a plasma protein secreted by the liver but is now thought to participate in the regulation of steroid responses. The encoded protein binds each steroid molecule as a dimer formed from identical or nearly identical monomers. The use of alternate promoters and alternatively spliced transcripts have been described. Multiple transcript variants encoding different isoforms have been found for this gene.
