SAB Signalway Antibody

Catalog No: #HW062

Description

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

| Product Name          | Histone H1(mono-Methyl-Lys25) Rabbit Polyclonal Antibody   |
|-----------------------|--|
| Host Species          | Rabbit   |
| Clonality             | Polyclonal   |
| Purification          | Affinity purification using immunogen.   |
| Applications          | WB   |
| Species Reactivity    | Hu Rt Ms   |
| Specificity           | The Histone H1(mono-methyl-Lys25) Rabbit Polyclonal Antibody detects endogenous Histone              |
|                       | H1(mono-methyl-Lys25) protein.   |
| Immunogen Type        | peptide  |
| Immunogen Description | A synthetic Mono-methylated peptide corresponding to residues surrounding Lys25 of human histone H1. |
| Target Name           | Histone H1(mono-Methyl-Lys25)  |
| Modification          | Methyl   |
| Other Names           | H1 antibody; HIST1H1B antibody; Histone 1 antibody; Histone H1a antibody                             |

Rabbit Antiserum, containing 0.02% sodium azide as Preservative and 50% Glycerol.

## **Application Details**

Accession No.

SDS-PAGE MW

Formulation

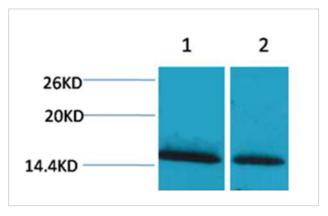

Storage

Uniprot

GeneID

Western blotting: 1:500~1:1000

## **Images**

Western blot analysis of 1) Hela, 2)3T3, using #HW062 diluted at 1:2,000

## Background

Histone H1 is one of the five main histone protein families which are components of chromatin in eukaryotic cells. May play a key role in the control of gene expression during oogenesis and early embryogenesis, presumably through the perturbation of chromatin structure.

Note: This product is for in vitro research use only
