

HUNK Antibody

Catalog No: #40261

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	HUNK Antibody
Host Species	Rabbit
Clonality	Polyclonal
Purification	Antigen affinity purification.
Applications	IHC
Species Reactivity	Hu
Specificity	The antibody detects endogenous levels of total HUNK protein.
Immunogen Type	Peptide
Immunogen Description	Synthetic peptide corresponding to residues near the C terminal of human hormonally up-regulated Neu-associated kinase
Target Name	HUNK
Accession No.	Swiss-Prot:P57058Gene Accssion:NP_055401
Uniprot	P57058
GeneID	30811;
Concentration	2.2mg/ml
Formulation	Rabbit IgG in pH7.4 PBS, 0.05% NaN ₃ , 40% Glycerol.
Storage	Store at -20°C

Application Details

Immunohistochemistry:1:25-1:100

Images

Immunohistochemical analysis of paraffin-embedded Human esophagus cancer tissue using #40261 at dilution 1/35.

Background

The HUNK (hormonally upregulated Neu-associated kinase) protein, also designated MAK-V in mouse, has been identified as a novel SNF1-related serine/threonine kinase. The human HUNK gene localizes to chromosome 21q22 and encodes a protein with nucleocytoplasmic distribution and localizes to the centrosome. Overexpression of the HUNK protein associates with approximately 50% of breast carcinomas, and may provide diagnostic-prognostic value as a molecular marker.?
