| Product Name          | Tumor necrosis factor ligand superfamily member 13                                                     |
|-----------------------|--------------------------------------------------------------------------------------------------------|
| Brief Description     | Recombinant Protein                                                                                    |
| Host Species          | E.coli                                                                                                 |
| Purification          | Greater than 90% by SDS-PAGE                                                                           |
| Species Reactivity    | Mouse                                                                                                  |
| Immunogen Description | 96-241aa                                                                                               |
| Other Names           | April,A proliferation-inducing ligand,APRIL,CD256                                                      |
| Accession No.         | Q9D777Gene name:Tnfsf13                                                                                |
| Uniprot               | Q9D777                                                                                                 |
| GeneID                | 69583;                                                                                                 |
| Calculated MW         | 16.06                                                                                                  |
| Tag Info              | His                                                                                                    |
| Formulation           | 50mM NaH2PO4, 500mM NaCl Buffer with 500mM Imidazole,10%glycerol(PH8.0)                                |
| Storage               | Store at -20C. (Avoid repeated freezing and thawing.)Repeated freezing and thawing is not recommended. |
|                       | Store working aliquots at 4°C for up to one week.                                                      |
|                       |                                                                                                        |

## **Images**

## Background

Cytokine that binds to TNFRSF13B/TACI and to TNFRSF17/BCMA. Plays a role in the regulation of tumor cell growth. May be involved in monocyte/macrophage-mediated immunological processes.

## References

Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.
