Lipin 1 Rabbit mAb

Catalog No: #49921

Package Size: #49921-1 50ul #49921-2 100ul

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

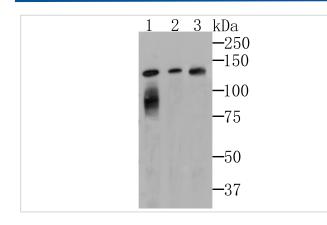

# Description

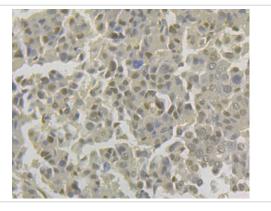

Product Name	Lipin 1 Rabbit mAb
Host Species	Recombinant Rabbit
Clonality	Monoclonal antibody
Clone No.	JG37-69
Purification	ProA affinity purified
Applications	WB,ICC,IF,IHC,FC,IP
Species Reactivity	Ни
Other Names	EC=3.1.3.4 antibody KIAA0188 antibody Lipin-1 antibody Lpin1 antibody LPIN1_HUMAN antibody
	PAP1 antibody Phosphatidate phosphatase LPIN1 antibody
Accession No.	Swiss-Prot#:Q14693
Uniprot	Q14693
GenelD	23175;
Calculated MW	98 kDa
Formulation	1*TBS (pH7.4), 1%BSA, 40%Glycerol. Preservative: 0.05% Sodium Azide.
Storage	Store at -20°C

# Application Details

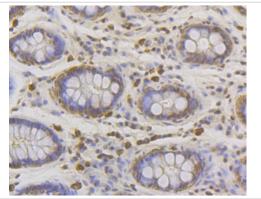

WB: 1:500-1:1,000IHC: 1:50-1:200 ICC: 1:50-1:200FC: 1:50-1:100

### Images

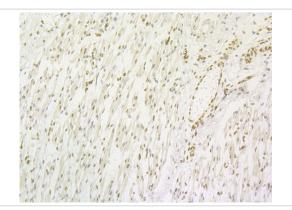

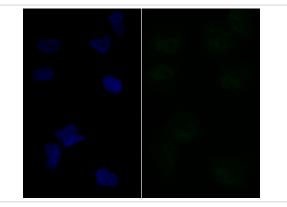

Immunohistochemical analysis of paraffin-embedded human liver cancer tissue using anti-Lipin 1 antibody. Counter stained with hematoxylin.

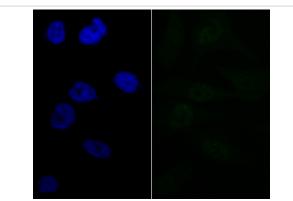

Immunohistochemical analysis of paraffin-embedded human colon tissue using anti-Lipin 1 antibody. Counter stained with hematoxylin.

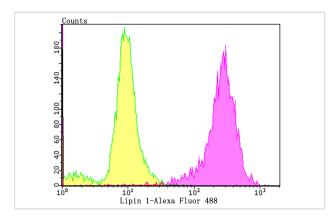

Immunohistochemical analysis of paraffin-embedded human skeletal muscle tissue using anti-Lipin 1 antibody. Counter stained with hematoxylin.

ICC staining Lipin 1 in HUVEC cells (green). The nuclear counter stain is DAPI (blue). Cells were fixed in paraformaldehyde, permeabilised with 0.25% Triton X100/PBS.

ICC staining Lipin 1 in PC-3M cells (green). The nuclear counter stain is DAPI (blue). Cells were fixed in paraformaldehyde, permeabilised with 0.25% Triton X100/PBS.

Flow cytometric analysis of PC-3M cells with Lipin 1 antibody at 1/50 dilution (purple) compared with an unlabelled control (cells without incubation with primary antibody; yellow). Alexa Fluor 488-conjugated goat anti-rabbit IgG was used as the secondary antibody.

### Background

Plays important roles in controlling the metabolism of fatty acids at different levels. Acts as a magnesium-dependent phosphatidate phosphatase enzyme which catalyzes the conversion of phosphatidic acid to diacylglycerol during triglyceride, phosphatidylcholine and phosphatidylethanolamine biosynthesis in the reticulum endoplasmic membrane. Acts also as a nuclear transcriptional coactivator for PPARGC1A/PPARA to modulate lipid metabolism gene expression (By similarity). Is involved in adipocyte differentiation. May also be involved in mitochondrial fission by converting phosphatidic acid to diacylglycerol (By similarity).
