Human Synaptotagmin-13 (SYT13) ELISA Kit

Catalog No: #EK6776

Package Size: #EK6776-1 48T #EK6776-2 96T

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description

and compare O.D.values of the kit kept at 37C with that of at recommended temperature. (referring from China Biological Products Standard, which was calculated by the Arrhenius equation. For ELISA kit, 4 days storage		within the expiration date under appropriate storage condition.
Biological Products Standard, which was calculated by the Arrhenius equation. For ELISA kit, 4 days storage		The loss rate was determined by accelerated thermal degradation test. Keep the kit at 37C for 4 and 7 days,
		and compare O.D.values of the kit kept at 37C with that of at recommended temperature. (referring from China
at 37C can be considered as 6 months at 2 - 8C, which means 7 days at 37C equaling 12 months at 2 - 8C).		Biological Products Standard, which was calculated by the Arrhenius equation. For ELISA kit, 4 days storage
		at 37C can be considered as 6 months at 2 - 8C, which means 7 days at 37C equaling 12 months at 2 - 8C).

Application Details	
Detect Range:Request Informa	tion
Sensitivity:Request Information	
Sample Type:Serum, Plasma,	Other biological fluids
Sample Volume: 1-200 µL	
Assay Time:1-4.5h	
Detection wavelength:450 nm	

Product Description

Detection Method:SandwichTest principle:This assay employs a two-site sandwich ELISA to quantitate SYT13 in samples. An antibody specific for SYT13 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and anySYT13 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SYT13 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SYT13 bound in the initial step. The color development is stopped and the intensity of the color is measured.

Note: This product is for in vitro research use only
