

Arginase-1 Antibody

Catalog No: #P1011

Package Size: #P1011-1 0.1ml #P1011-2 1ml

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Arginase-1 Antibody
Host Species	Mouse
Clonality	Monoclonal
Clone No.	IHC400
Applications	IHC
Species Reactivity	Human
Formulation	Tris Buffer, pH 7.3 - 7.7, with 1% BSA and
Storage	Store at 2-8C. Do not freeze.

Application Details

Recommended

working dilution range:1:100 - 1:200

Arginase-1 Antibody (P1011) on Liver

Product Description

Arginase-1, encoded by the ARG1 gene, is a cytosolic metalloenzyme expressed predominantly in hepatocytes which plays a key role in the urea cycle by catalyzing the hydrolysis of arginine to ornithine and urea. Argininemia is an inherited autosomal recessive disorder characterized by a buildup of arginine and ammonia in the blood. Anti-Arginase-1 is highly specific for hepatocytes, and is therefore a sensitive and specific marker of benign and malignant hepatic tumors.
