

Recombinant Human MMP9

Catalog No: #GP10080

Package Size: #GP10080-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human MMP9
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 180 amino acids of human matrix metalloproteinase 9 (gelatinase B, 92kDa gelatinase, 92kDa type IV collagenase)
Target Name	matrix metalloproteinase 9 (gelatinase B, 92kDa gelatinase, 92kDa type IV collagenase)
Other Names	GELB; CLG4B; MMP-9; MANDP2
Accession No.	Swissprot:P14780Gene Accession:BC006093
Uniprot	P14780
GenID	4318;
Storage	-20~-80°C, pH 7.6 PBS

Background

Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. Most MMP's are secreted as inactive proproteins which are activated when cleaved by extracellular proteinases.?
