

Recombinant Human TONSL

Catalog No: #GP10107

Package Size: #GP10107-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human TONSL
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 250 amino acids of human TONSL
Target Name	tonsoku-like, DNA repair protein
Other Names	IKBR; NFKBIL2
Accession No.	Swissprot:Q96HA7Gene Accession:BC008782
Uniprot	Q96HA7
GeneID	4796;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene is thought to be a negative regulator of NF-kappa-B mediated transcription. The encoded protein may bind NF-kappa-B complexes and trap them in the cytoplasm, preventing them from entering the nucleus and interacting with the DNA. Phosphorylation of this protein targets it for degradation by the ubiquitination pathway, which frees the NF-kappa-B complexes to enter the nucleus.
