

Recombinant Human BCOR

Catalog No: #GP10114

Package Size: #GP10114-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human BCOR
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 2-189 amino acids of human BCL6 corepressor
Target Name	BCL6 corepressor
Other Names	MAA2, ANOP2, MCOPS2
Accession No.	Swissprot:Q6W2J9Gene Accession:BC063536
Uniprot	Q6W2J9
GeneID	54880;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene was identified as an interacting corepressor of BCL6, a POZ/zinc finger transcription repressor that is required for germinal center formation and may influence apoptosis. This protein selectively interacts with the POZ domain of BCL6, but not with eight other POZ proteins. Specific class I and II histone deacetylases (HDACs) have been shown to interact with this protein, which suggests a possible link between the two classes of HDACs. Several transcript variants encoding different isoforms have been found for this gene. A pseudogene of this gene is found on chromosome Y.
