

Recombinant Human FSCN1

Catalog No: #GP10186

Package Size: #GP10186-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human FSCN1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 1-200 amino acids of human fascin homolog 1, actin-bundling protein (<i>Strongylocentrotus purpuratus</i>)
Target Name	fascin homolog 1, actin-bundling protein (<i>Strongylocentrotus purpuratus</i>)
Other Names	HSN; SNL; p55; FAN1
Accession No.	Swissprot:Q16658Gene Accession:BC000521
Uniprot	Q16658
GenID	6624;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a member of the fascin family of actin-binding proteins. Fascin proteins organize F-actin into parallel bundles, and are required for the formation of actin-based cellular protrusions. The encoded protein plays a critical role in cell migration, motility, adhesion and cellular interactions. Expression of this gene is known to be regulated by several microRNAs, and overexpression of this gene may play a role in the metastasis of multiple types of cancer by increasing cell motility
