

Recombinant Human CLCA4

Catalog No: #GP10300

Package Size: #GP10300-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human CLCA4
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 306-476 amino acids of human Calcium-activated chloride channel regulator 4
Target Name	Calcium-activated chloride channel regulator 4
Other Names	CaCC, CaCC2
Accession No.	Swissprot:Q14CN2Gene Accession:BC113689
Uniprot	Q14CN2
GenID	22802;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene belongs to the calcium sensitive chloride conductance protein family. To date, all members of this gene family map to the same site on chromosome 1p31-p22 and share high degrees of homology in size, sequence and predicted structure, but differ significantly in their tissue distributions. Alternative splicing results in multiple transcript variants, only one of which is thought to be protein coding.
