

## Recombinant Human CLEC2B

Catalog No: #GP10306

Package Size: #GP10306-1 100ug

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

Product Name	Recombinant Human CLEC2B
Brief Description	Recombinant Protein
Immunogen Description	Full length fusion protein
Target Name	C-type lectin domain family 2, member B
Other Names	AICL, IFNRG1, CLECSF2, HP10085
Accession No.	Swissprot:Q92478Gene Accession:BC005254
Uniprot	Q92478
GeneID	9976;
Storage	-20~-80°C, pH 7.6 PBS

## Background

This gene encodes a member of the C-type lectin/C-type lectin-like domain (CTL/CTLD) superfamily. Members of this family share a common protein fold and have diverse functions, such as cell adhesion, cell-cell signalling, glycoprotein turnover, and roles in inflammation and immune response. The encoded type 2 transmembrane protein may function as a cell activation antigen. An alternative splice variant has been described but its full-length sequence has not been determined. This gene is closely linked to other CTL/CTLD superfamily members on chromosome 12p13 in the natural killer gene complex region.
