

Recombinant Human TRAP1

Catalog No: #GP10494

Package Size: #GP10494-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human TRAP1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a C terminal 300 amino acids of human TNF receptor-associated protein 1
Target Name	TNF receptor-associated protein 1
Other Names	HSP75, HSP90L
Accession No.	Swissprot:Q12931Gene Accession:BC018950
Uniprot	Q12931
GeneID	10131;
Storage	-20~-80°C, pH 7.6 PBS

Background

HSP90 proteins are highly conserved molecular chaperones that have key roles in signal transduction, protein folding, protein degradation, and morphologic evolution. HSP90 proteins normally associate with other cochaperones and play important roles in folding newly synthesized proteins or stabilizing and refolding denatured proteins after stress. TRAP1 is a mitochondrial HSP90 protein. Other HSP90 proteins are found in cytosol and endoplasmic reticulum
