

Recombinant Human INHBC

Catalog No: #GP10522

Package Size: #GP10522-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human INHBC
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 237-352 amino acids of human inhibin, beta C
Target Name	inhibin, beta C
Other Names	IHBC
Accession No.	Swissprot:P55103Gene Accession:BC130324
Uniprot	P55103
GeneID	3626;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes the beta C chain of inhibin, a member of the TGF-beta superfamily. This subunit forms heterodimers with beta A and beta B subunits. Inhibins and activins, also members of the TGF-beta superfamily, are hormones with opposing actions and are involved in hypothalamic, pituitary, and gonadal hormone secretion, as well as growth and differentiation of various cell types.
