## **Recombinant Human LAMA4**

Catalog No: #GP10554

Package Size: #GP10554-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

## Description

| · · · · · · · · · · · · · · · · · · · |   |
|---------------------------------------|---|
| Product Name                          | Recombinant Human LAMA4                 |
| Brief Description                     | Recombinant Protein                     |
| Immunogen Description                 | Full length fusion protein              |
| Target Name                           | laminin, alpha 4                        |
| Other Names                           | LAMA3; CMD1JJ; LAMA4*-1                 |
| Accession No.                         | Swissprot:Q16363Gene Accession:BC004241 |
| Uniprot                               | Q16363                                  |
| GenelD                                | 3910;                                   |
| Storage                               | -20~-80°C, pH 7.6 PBS                   |
|                                       |   |

## Background

Laminins, a family of extracellular matrix glycoproteins, are the major noncollagenous constituent of basement membranes. They have been implicated in a wide variety of biological processes including cell adhesion, differentiation, migration, signaling, neurite outgrowth and metastasis. Laminins are composed of 3 non identical chains: laminin alpha, beta and gamma (formerly A, B1, and B2, respectively) and they form a cruciform structure consisting of 3 short arms, each formed by a different chain, and a long arm composed of all 3 chains.
