

Recombinant Human MDK

Catalog No: #GP10596

Package Size: #GP10596-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human MDK
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 21-143 amino acids of human midkine (neurite growth-promoting factor 2)
Target Name	midkine (neurite growth-promoting factor 2)
Other Names	MK, ARAP, NEGF2
Accession No.	Swissprot:P21741Gene Accession:BC011704
Uniprot	P21741
GenID	4192;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a member of a small family of secreted growth factors that binds heparin and responds to retinoic acid. The encoded protein promotes cell growth, migration, and angiogenesis, in particular during tumorigenesis. This gene has been targeted as a therapeutic for a variety of different disorders. Alternatively spliced transcript variants encoding multiple isoforms have been observed.
