

Recombinant Human TAC1

Catalog No: #GP10633

Package Size: #GP10633-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human TAC1
Brief Description	Recombinant Protein
Immunogen Description	Full length fusion protein
Target Name	tachykinin, precursor 1
Other Names	NK2; NPK; NKNA; TAC2; Hs.2563
Accession No.	Swissprot:P20366Gene Accession:BC018047
Uniprot	P20366
GeneID	6863;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes four products of the tachykinin peptide hormone family, substance P and neurokinin A, as well as the related peptides, neuropeptide K and neuropeptide gamma. These hormones are thought to function as neurotransmitters which interact with nerve receptors and smooth muscle cells. They are known to induce behavioral responses and function as vasodilators and secretagogues. Multiple transcript variants encoding different isoforms have been found for this gene.
