

Recombinant Human RARA

Catalog No: #GP10742

Package Size: #GP10742-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human RARA
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 200-419 amino acids of human retinoic acid receptor, alpha
Target Name	Retinoic acid receptor, alpha
Other Names	RAR; NR1B1
Accession No.	Swissprot:P10276Gene Accession:BC008727
Uniprot	P10276
GenID	5914;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene represents a nuclear retinoic acid receptor. The encoded protein, retinoic acid receptor alpha, regulates transcription in a ligand-dependent manner. This gene has been implicated in regulation of development, differentiation, apoptosis, granulopoiesis, and transcription of clock genes. Translocations between this locus and several other loci have been associated with acute promyelocytic leukemia. Alternatively spliced transcript variants have been found for this locus.
