

Recombinant Human NAPA

Catalog No: #GP10771

Package Size: #GP10771-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human NAPA
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 25-295 amino acids of human N-ethylmaleimide-sensitive factor attachment protein, alpha
Target Name	N-ethylmaleimide-sensitive factor attachment protein, alpha
Other Names	SNAPA
Accession No.	Swissprot:P54920Gene Accession:BC001165
Uniprot	P54920
GenelD	8775;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a member of the soluble NSF attachment protein (SNAP) family. SNAP proteins play a critical role in the docking and fusion of vesicles to target membranes as part of the 20S NSF-SNAP-SNARE complex. The encoded protein plays a role in the completion of membrane fusion by mediating the interaction of N-ethylmaleimide-sensitive factor (NSF) with the vesicle-associated and membrane-associated SNAP receptor (SNARE) complex, and stimulating the ATPase activity of NSF. Alternatively spliced transcript variants have been observed for this gene.
