

Recombinant Human SOX7

Catalog No: #GP10781

Package Size: #GP10781-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human SOX7
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 268-388 amino acids of human SRY (sex determining region Y)-box 7
Target Name	SRY (sex determining region Y)-box 7
Accession No.	Swissprot:Q9BT81 Gene Accession:BC071947
Uniprot	Q9BT81
GeneID	83595;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a member of the SOX (SRY-related HMG-box) family of transcription factors involved in the regulation of embryonic development and in the determination of the cell fate. The encoded protein may act as a transcriptional regulator after forming a protein complex with other proteins. The protein may play a role in tumorigenesis. A similar protein in mice is involved in the regulation of the wingless-type MMTV integration site family (Wnt) pathway.
