

Recombinant Human TFF2

Catalog No: #GP10814

Package Size: #GP10814-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human TFF2
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 24-129 amino acids of human trefoil factor 2
Target Name	trefoil factor 2
Other Names	SP; SML1
Accession No.	Swissprot:Q03403Gene Accession:BC032820
Uniprot	Q03403
GeneID	7032;
Storage	-20~-80°C, pH 7.6 PBS

Background

Members of the trefoil family are characterized by having at least one copy of the trefoil motif, a 40-amino acid domain that contains three conserved disulfides. They are stable secretory proteins expressed in gastrointestinal mucosa. Their functions are not defined, but they may protect the mucosa from insults, stabilize the mucus layer and affect healing of the epithelium. The encoded protein inhibits gastric acid secretion. This gene and two other related trefoil family member genes are found in a cluster on chromosome 21.
