

Recombinant Human AEBP2

Catalog No: #GP10973

Package Size: #GP10973-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human AEBP2
Brief Description	Recombinant Protein
Immunogen Description	Full length fusion protein
Target Name	AE binding protein 2
Accession No.	Swissprot:Q6ZN18Gene Accession:BC015624
Uniprot	Q6ZN18
GeneID	121536;
Storage	-20~-80°C, pH 7.6 PBS

Background

AEBP2 is a zinc finger protein that has been shown to interact with the mammalian Polycomb Repression Complex 2 (PRC2). AEBP2 is an evolutionarily well-conserved gene that is found in the animals ranging from flying insects to mammals. The transcription of mammalian AEBP2 is driven by two alternative promoters and produces at least two isoforms of the protein. These isoforms show developmental stage-specific expression patterns: the adult-specific larger form (51 kDa) and the embryo-specific smaller form (32 kDa).
