

Recombinant Human STAMBP

Catalog No: #GP11033

Package Size: #GP11033-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human STAMBP
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 252-361 amino acids of human STAM binding protein
Target Name	STAM binding protein
Other Names	AMSH
Accession No.	Swissprot:O95630Gene Accession:BC065574
Uniprot	O95630
GeneID	10617;
Storage	-20~-80°C, pH 7.6 PBS

Background

Cytokine-mediated signal transduction in the JAK-STAT cascade requires the involvement of adaptor molecules. One such signal-transducing adaptor molecule contains an SH3 domain that is required for induction of MYC and cell growth. The protein encoded by this gene binds to the SH3 domain of the signal-transducing adaptor molecule, and plays a critical role in cytokine-mediated signaling for MYC induction and cell cycle progression. Multiple alternatively spliced transcript variants encoding the same protein isoform have been found for this gene.
