Recombinant Human ARSF

Catalog No: #GP11106

Package Size: #GP11106-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description

Product Name	Recombinant Human ARSF
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 250 amino acids of human arylsulfatase F
Target Name	arylsulfatase F
Other Names	ASF
Accession No.	Swissprot:P54793Gene Accession:BC022389
Uniprot	P54793
GeneID	416;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene is a member of the sulfatase family, and more specifically, the arylsulfatase subfamily. Members of the subfamily share similarity in sequence and splice sites, and are clustered together on chromosome X, suggesting that they are derived from recent gene duplication events. Sulfatases are essential for the correct composition of bone and cartilage matrix. The activity of this protein, unlike that of arylsulfatase E, is not inhibited by warfarin. Multiple alternatively spliced variants, encoding the same protein, have been identified.
