## Description

Product Name	Recombinant Human OLFM1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 226-467 amino acids of human olfactomedin 1
Target Name	olfactomedin 1
Other Names	AMY; NOE1; OlfA; NOELIN1
Accession No.	Swissprot:Q99784Gene Accession:BC008763
Uniprot	Q99784
GeneID	10439;
Storage	-20~-80°C, pH 7.6 PBS

## Background

This gene product shares extensive sequence similarity with the rat neuronal olfactomedin-related ER localized protein. While the exact function of the encoded protein is not known, its abundant expression in brain suggests that it may have an essential role in nerve tissue. Several alternatively spliced transcripts encoding different isoforms have been found for this gene.
