| Product Name | Recombinant Human MUSK |
|-----------------------|--|
| Brief Description | Recombinant Protein |
| Immunogen Description | Fusion protein corresponding to a region derived from 24-324 amino acids of human muscle, skeletal, receptor |
| | tyrosine kinase |
| Target Name | muscle, skeletal, receptor tyrosine kinase |
| Accession No. | Swissprot:O15146Gene Accession:BC109098 |
| Uniprot | O15146 |
| GeneID | 4593; |
| Storage | -20~-80°C, pH 7.6 PBS |

Background

This gene encodes a muscle-specific tyrosine kinase receptor. The encoded protein may play a role in clustering of the acetylcholine receptor in the postsynaptic neuromuscular junction. Mutations in this gene have been associated with congenital myasthenic syndrome. Alternatively spliced transcript variants have been described.
