

Recombinant Human CSNK1E

Catalog No: #GP11218

Package Size: #GP11218-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human CSNK1E
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 250 amino acids of human casein kinase 1, epsilon
Target Name	casein kinase 1, epsilon
Other Names	HCKIE; CKIepsilon
Accession No.	Swissprot:P49674Gene Accession:BC006490
Uniprot	P49674
GeneID	102800317;1454;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene is a serine/threonine protein kinase and a member of the casein kinase I protein family, whose members have been implicated in the control of cytoplasmic and nuclear processes, including DNA replication and repair. The encoded protein is found in the cytoplasm as a monomer and can phosphorylate a variety of proteins, including itself. This protein has been shown to phosphorylate period, a circadian rhythm protein. Two transcript variants encoding the same protein have been found for this gene.?
