

Recombinant Human TRIP4

Catalog No: #GP11233

Package Size: #GP11233-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human TRIP4
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 250 amino acids of human thyroid hormone receptor interactor 4
Target Name	thyroid hormone receptor interactor 4
Other Names	ASC1; ASC-1; HsT17391
Accession No.	Swissprot:Q15650Gene Accession:BC012448
Uniprot	Q15650
GeneID	9325;
Storage	-20~-80°C, pH 7.6 PBS

Background

Activating signal co-integrator-1 (ASC-1), originally identified as TRIP4, is a transcriptional co-activator of nuclear receptors that associates with specific components of the RNA polymerase II complex and binds the basal transcription factors TBP and TFIIA. ASC-1 functions with the transcription integrators SRC-1 and CBP/p300 through its zinc finger motif and is dependent on their ligand-dependent transactivation domain, AF2. Endogenous ASC-1 in HeLa cells is predominantly a nuclear protein. Under conditions of serum starvation, ASC-1 localizes to the cytoplasm.?
