

Recombinant Human ABI3BP

Catalog No: #GP11242

Package Size: #GP11242-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human ABI3BP
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 731-930 amino acids of human ABI family, member 3 (NESH) binding protein
Target Name	ABI family, member 3 (NESH) binding protein
Other Names	TARSH; NESHBP
Accession No.	Swissprot:Q7Z7G0Gene Accession:BC030221
Uniprot	Q7Z7G0
GenID	25890;
Storage	-20~-80°C, pH 7.6 PBS

Background

A target of NESH-SH3/Abi3bp (TARSH) was originally identified as an SH3 domain-binding molecule of the NESH-SH3/Abi3 protein that is involved in Rac-dependent actin polymerization. In recent studies, TARSH gene expression was dramatically induced in mouse embryonic fibroblasts (MEFs) replicative senescence and suppressed in human lung carcinoma specimens and thyroid carcinomas. However, the molecular mechanism underlying the regulation of TARSH in tumorigenesis remains unclear.
