

Recombinant Human COPB1

Catalog No: #GP11280

Package Size: #GP11280-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human COPB1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 250 amino acids of human coatomer protein complex, subunit beta 1
Target Name	coatomer protein complex, subunit beta 1
Other Names	COPB
Accession No.	Swissprot:P53618Gene Accession:BC037280
Uniprot	P53618
GenID	1315;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a protein subunit of the coatomer complex associated with non-clathrin coated vesicles. The coatomer complex, also known as the coat protein complex 1, forms in the cytoplasm and is recruited to the Golgi by activated guanosine triphosphatases. Once at the Golgi membrane, the coatomer complex may assist in the movement of protein and lipid components back to the endoplasmic reticulum. Alternatively spliced transcript variants have been described.
