

Recombinant Human CADM3

Catalog No: #GP11303

Package Size: #GP11303-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human CADM3
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 250 amino acids of human cell adhesion molecule 3
Target Name	cell adhesion molecule 3
Other Names	BlgR; NECL1; TSLL1; IGSF4B; Necl-1; synCAM3
Accession No.	Swissprot:Q8N126Gene Accession:BC033819
Uniprot	Q8N126
GeneID	57863;
Storage	-20~-80°C, pH 7.6 PBS

Background

Cell adhesion molecule 3 is a protein that in humans is encoded by the CADM3 gene. IGSF4B is a brain-specific protein related to the calcium-independent cell-cell adhesion molecules known as nectins. Involved in the cell-cell adhesion. Has both calcium-independent homophilic cell-cell adhesion activity and calcium-independent heterophilic cell-cell adhesion activity with IGSF4, PVRL1 and PVRL3. Interaction with EPB41L1 may regulate structure or function of cell-cell junctions.
