

# Recombinant Human CD177

Catalog No: #GP11338

Package Size: #GP11338-1 100ug

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

|                       |  |
|-----------------------|--|
| Product Name          | Recombinant Human CD177  |
| Brief Description     | Recombinant Protein  |
| Immunogen Description | Fusion protein corresponding to a region derived from 22-270 amino acids of human CD177 molecule |
| Target Name           | CD177 molecule   |
| Other Names           | NB1; PRV1; HNA2A; PRV-1; HNA-2a; NB1 GP  |
| Accession No.         | Swissprot:Q8N6Q3Gene Accession:BC029167  |
| Uniprot               | Q8N6Q3   |
| GeneID                | 57126;   |
| Storage               | -20~-80°C, pH 7.6 PBS  |

## Background

NB1, a glycosyl-phosphatidylinositol (GPI)-linked N-glycosylated cell surface glycoprotein, was first described in a case of neonatal alloimmune neutropenia. Highly expressed in normal bone marrow and weakly expressed in fetal liver. Expressed on neutrophils. Expressed in granulocytes of patients with polycythemia vera (PV) and with essential thrombocythemia (ET).
