Recombinant Human CTNNBL1

Catalog No: #GP11409

Package Size: #GP11409-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description

Product Name	Recombinant Human CTNNBL1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 251-563 amino acids of human CTNNBL1
Target Name	catenin, beta like 1
Other Names	NAP; P14L; PP8304; C20orf33; dJ633O20.1
Accession No.	Swissprot:Q8WYA6Gene Accession:BC036739
Uniprot	Q8WYA6
GeneID	56259;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene is a component of the pre-mRNA-processing factor 19-cell division cycle 5-like (PRP19-CDC5L) protein complex, which activates pre-mRNA splicing and is an integral part of the spliceosome. The encoded protein is also a nuclear localization sequence binding protein, and binds to activation-induced deaminase and is important for antibody diversification. This gene may also be associated with the development of obesity.
