

Recombinant Human PPIB

Catalog No: #GP11413

Package Size: #GP11413-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human PPIB
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 34-216 amino acids of human peptidylprolyl isomerase B (cyclophilin B)
Target Name	peptidylprolyl isomerase B (cyclophilin B)
Other Names	OI9; CYPB; SCYLP; CYP-S1
Accession No.	Swissprot:P23284Gene Accession:BC001125
Uniprot	P23284
GenID	5479;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene is a cyclosporine-binding protein and is mainly located within the endoplasmic reticulum. It is associated with the secretory pathway and released in biological fluids. This protein can bind to cells derived from T- and B-lymphocytes, and may regulate cyclosporine A-mediated immunosuppression. Variants have been identified in this protein that give rise to recessive forms of osteogenesis imperfecta.
