

Recombinant Human DACH1

Catalog No: #GP11435

Package Size: #GP11435-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human DACH1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from C terminal 200 amino acids of human dachshund homolog 1 (Drosophila)
Target Name	dachshund homolog 1 (Drosophila)
Other Names	DACH
Accession No.	Swissprot:Q9UI36Gene Accession:BC021219
Uniprot	Q9UI36
GenID	1602;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a chromatin-associated protein that associates with other DNA-binding transcription factors to regulate gene expression and cell fate determination during development. The protein contains a Ski domain that is highly conserved from Drosophila to human. Expression of this gene is lost in some forms of metastatic cancer, and is correlated with poor prognosis. Multiple transcript variants encoding different isoforms have been found for this gene.
