

## Recombinant Human CCAR1

Catalog No: #GP11463

Package Size: #GP11463-1 100ug

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

Product Name	Recombinant Human CCAR1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from C terminal 250 amino acids of human cell division cycle and apoptosis regulator 1
Target Name	cell division cycle and apoptosis regulator 1
Other Names	RP11-437A18.1
Accession No.	Swissprot:Q8IX12Gene Accession:BC130626
Uniprot	Q8IX12
GenID	55749;
Storage	-20~-80°C, pH 7.6 PBS

## Background

Cell division cycle and apoptosis regulator protein 1 is a protein that in humans is encoded by the CCAR1 gene. The deduced 1,150-amino acid CARP1 protein contains a putative cold-shock protein domain expected to bind RNA and a putative DNA-binding motif predicted to be involved in chromosomal organization. Immunohistochemical analysis detected CARP1 in the perinuclear compartment of human breast cancer cells, and the protein had an apparent molecular mass of 130 kD by SDS-PAGE.
