Recombinant Human EEF2

Catalog No: #GP11490

Package Size: #GP11490-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description

Product Name	Recombinant Human EEF2
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from C terminal 250 amino acids of human eukaryotic
	translation elongation factor 2
Target Name	eukaryotic translation elongation factor 2
Other Names	EF2; EF-2; EEF-2; SCA26
Accession No.	Swissprot:P13639Gene Accession:BC126259
Uniprot	P13639
GeneID	1938;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a member of the GTP-binding translation elongation factor family. This protein is an essential factor for protein synthesis. It promotes the GTP-dependent translocation of the nascent protein chain from the A-site to the P-site of the ribosome. This protein is completely inactivated by EF-2 kinase phosporylation.
