

Recombinant Human FAIM3

Catalog No: #GP11530

Package Size: #GP11530-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

| | |
|-----------------------|---|
| Product Name | Recombinant Human FAIM3 |
| Brief Description | Recombinant Protein |
| Immunogen Description | Fusion protein corresponding to a region derived from 18-251 amino acids of human Fas apoptotic inhibitory molecule 3 |
| Target Name | Fas apoptotic inhibitory molecule 3 |
| Other Names | FCMR; TOSO |
| Accession No. | Swissprot:O60667Gene Accession:BC006401 |
| Uniprot | O60667 |
| GenID | 9214; |
| Storage | -20~-80°C, pH 7.6 PBS |

Background

Fc receptors specifically bind to the Fc region of immunoglobulins (Igs) to mediate the unique functions of each Ig class. FAIM3 encodes an Fc receptor for IgM. May play a role in the immune system processes. Protects cells from FAS-, TNF alpha- and FADD-induced apoptosis without increasing expression of the inhibitors of apoptosis BCL2 and BCLXL. Seems to activate an inhibitory pathway that prevents CASP8 activation following FAS stimulation, rather than blocking apoptotic signals downstream.
