

Recombinant Human JMJD6

Catalog No: #GP11683

Package Size: #GP11683-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human JMJD6
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 141-340 amino acids of human jumonji domain containing 6
Target Name	jumonji domain containing 6
Other Names	PSR; PTDSR; PTDSR1
Accession No.	Swissprot:Q6NYC1Gene Accession:BC066654
Uniprot	Q6NYC1
GenelD	23210;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene encodes a nuclear protein with a JmjC domain. JmjC domain-containing proteins are predicted to function as protein hydroxylases or histone demethylases. This protein was first identified as a putative phosphatidylserine receptor involved in phagocytosis of apoptotic cells; however, subsequent studies have indicated that it does not directly function in the clearance of apoptotic cells, and questioned whether it is a true phosphatidylserine receptor. Multiple transcript variants encoding different isoforms have been found for this gene.
