

Recombinant Human LEPREL2

Catalog No: #GP11712

Package Size: #GP11712-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human LEPREL2
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 401-675 amino acids of human leprecan-like 2
Target Name	leprecan-like 2
Other Names	GRCB; P3H3; HSU47926
Accession No.	Swissprot:Q8IVL6Gene Accession:BC017217
Uniprot	Q8IVL6
GeneID	10536;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene belongs to the leprecan family of proteoglycans, which function as collagen prolyl hydroxylases that are required for proper collagen biosynthesis, folding and assembly. This protein, like other family members, is thought to reside in the endoplasmic reticulum. Epigenetic inactivation of this gene is associated with breast and other cancers, suggesting that it may function as a tumor suppressor.
