

Recombinant Human PAGE2

Catalog No: #GP11843

Package Size: #GP11843-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human PAGE2
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 1-111 amino acids of human PAGE2
Target Name	PAGE family member 2
Other Names	CT16.4; GAGEC2; GAGEE2; PAGE-2
Accession No.	Swissprot:Q7Z2X7Gene Accession:BC054022
Uniprot	Q7Z2X7
GeneID	203569;
Storage	-20~-80°C, pH 7.6 PBS

Background

PAGE-2 (prostate-associated gene 2 protein), also known as P antigen family member 2B, GAGEC2, CT16.4 or GAGEE2, is a 111 amino acid protein that is expressed primarily in testis and belongs to the GAGE family. PAGE-2B (prostate-associated gene 2B protein), also designated putative G antigen family E member 3, P antigen family member 2B, CT16.5 or GAGEE3, also consists of 111 amino acids and is a member of the GAGE family. Both proteins are encoded by genes that map to human chromosome X, which consists of about 153 million base pairs and nearly 1,000 genes. The combination of a X and Y chromosome lead to normal male development while two copies of X lead to normal female development.
