

## Recombinant Human PLS3

Catalog No: #GP11870

Package Size: #GP11870-1 100ug

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

Product Name	Recombinant Human PLS3
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 383-627 amino acids of human plastin 3
Target Name	plastin 3
Other Names	BMND18; T-plastin
Accession No.	Swissprot:P13797Gene Accession:BC039049
Uniprot	P13797
GeneID	5358;
Storage	-20~-80°C, pH 7.6 PBS

## Background

Plastins are a family of actin-binding proteins that are conserved throughout eukaryote evolution and expressed in most tissues of higher eukaryotes. In humans, two ubiquitous plastin isoforms (L and T) have been identified. Plastin 1 (otherwise known as Fimbrin) is a third distinct plastin isoform which is specifically expressed at high levels in the small intestine. The L isoform is expressed only in hemopoietic cell lineages, while the T isoform has been found in all other normal cells of solid tissues that have replicative potential (fibroblasts, endothelial cells, epithelial cells, melanocytes, etc.).
