

# Recombinant Human RASSF7

Catalog No: #GP11929

Package Size: #GP11929-1 100ug

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

Product Name	Recombinant Human RASSF7
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 250 amino acids of human Ras association (RalGDS/AF-6) domain family (N-terminal) member 7
Target Name	Ras association (RalGDS/AF-6) domain family (N-terminal) member 7
Other Names	HRC1; HRAS1; C11orf13
Accession No.	Swissprot:Q02833Gene Accession:BC106921
Uniprot	Q02833
GenID	8045;
Storage	-20~-80°C, pH 7.6 PBS

## Background

RASSF7 (Ras association domain-containing protein 7), also designated HRAS1-related cluster protein 1, is a 373 amino acid protein that localizes to the centrosome. RASSF7, RASSF8, RASSF9 and RASSF10 are four evolutionary conserved proteins that are collectively known as the N-terminal RASSF family. Expressed in skin, neural tube and eye, RASSF7 is believed to play an essential role in mitosis. Further supporting its mitotic role, knockdown of Xenopus RASSF7 has been shown to influence cell failure to form mitotic spindle and also cause nuclear breakdown and apoptosis.?
