

Recombinant Human TNFAIP2

Catalog No: #GP12142

Package Size: #GP12142-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human TNFAIP2
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 231 amino acids of human tumor necrosis factor, alpha-induced protein 2
Target Name	tumor necrosis factor, alpha-induced protein 2
Other Names	B94; EXOC3L3
Accession No.	Swissprot:Q03169Gene Accession:BC128449
Uniprot	Q03169
GenID	7127;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene was identified as a gene whose expression can be induced by the tumor necrosis factor alpha (TNF) in umbilical vein endothelial cells. The expression of this gene was shown to be induced by retinoic acid in a cell line expressing a oncogenic version of the retinoic acid receptor alpha fusion protein, which suggested that this gene may be a retinoic acid target gene in acute promyelocytic leukemia.
