

Recombinant Human TSSC1

Catalog No: #GP12167

Package Size: #GP12167-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human TSSC1
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 200 amino acids of human tumor suppressing subtransferable candidate 1
Target Name	tumor suppressing subtransferable candidate 1
Accession No.	Swissprot:Q53HC9Gene Accession:BC002485
Uniprot	Q53HC9
GeneID	7260;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene has been reported in PMID 9403053 as one of several tumor-suppressing subtransferable fragments located in the imprinted gene domain of 11p15.5, an important tumor-suppressor gene region. Alterations in this region have been associated with the Beckwith-Wiedemann syndrome, Wilms tumor, rhabdomyosarcoma, adrenocortical carcinoma, and lung, ovarian, and breast cancer. Alignment of this gene to genomic sequence data suggests that this gene resides on chromosome 2 rather than chromosome 11.?
