Recombinant Human SDCBP

Catalog No: #GP12194

Package Size: #GP12194-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description

| Product Name | Recombinant Human SDCBP |
|-----------------------|---|
| Brief Description | Recombinant Protein |
| Immunogen Description | Full length fusion protein |
| Target Name | syndecan binding protein (syntenin) |
| Other Names | ST1; MDA9; SYCL; MDA-9; TACIP18 |
| Accession No. | Swissprot:000560Gene Accession:BC113674 |
| Uniprot | O00560 |
| GeneID | 6386; |
| Storage | -20~-80°C, pH 7.6 PBS |
| | |

Background

The protein encoded by this gene was initially identified as a molecule linking syndecan-mediated signaling to the cytoskeleton. The syntenin protein contains tandemly repeated PDZ domains that bind the cytoplasmic, C-terminal domains of a variety of transmembrane proteins. This protein may also affect cytoskeletal-membrane organization, cell adhesion, protein trafficking, and the activation of transcription factors. The protein is primarily localized to membrane-associated adherens junctions and focal adhesions but is also found at the endoplasmic reticulum and nucleus.?
