

Recombinant Human ZFP91

Catalog No: #GP12268

Package Size: #GP12268-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human ZFP91
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to C terminal 200 amino acids of human ZFP91
Target Name	ZFP91 zinc finger protein
Other Names	PZF; DMS-8; DSM-8; FKSG11; ZFP-91; ZNF757
Accession No.	Swissprot:Q96JP5Gene Accession:BC051743
Uniprot	Q96JP5
GeneID	80829;
Storage	-20~-80°C, pH 7.6 PBS

Background

The protein encoded by this gene is a member of the zinc finger family of proteins. The gene product contains C2H2-type domains, which are the classical zinc finger domains found in numerous nucleic acid-binding proteins. This protein functions as a regulator of the non-canonical NF-kappaB pathway in lymphotoxin-beta receptor signaling. Alternative splicing results in multiple transcript variants. A read-through transcript variant composed of ZFP91 and the downstream CNTF gene sequence has been identified, but it is thought to be non-coding. Read-through transcription of ZFP91 and CNTF has also been observed in mouse. A ZFP91-related pseudogene has also been identified on chromosome 2.
