

Recombinant Human KHDRBS3

Catalog No: #GP12412

Package Size: #GP12412-1 100ug

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Recombinant Human KHDRBS3
Brief Description	Recombinant Protein
Immunogen Description	Full length fusion protein
Target Name	KH domain containing, RNA binding, signal transduction associated 3
Other Names	Etle; SALP; SLM2; SLM-2; TSTAR; T-STAR; etoile
Accession No.	Swissprot:O75525Gene Accession:BC032606
Uniprot	O75525
GeneID	10656;
Storage	-20~-80°C, pH 7.6 PBS

Background

RNA-binding protein that plays a role in the regulation of alternative splicing and influences mRNA splice site selection and exon inclusion. May play a role as a negative regulator of cell growth. Inhibits cell proliferation. Involved in splice site selection of vascular endothelial growth factor. Induces an increased concentration-dependent incorporation of exon in CD44 pre-mRNA by direct binding to purine-rich exonic enhancer. RNA-binding abilities are down-regulated by tyrosine kinase PTK6. Involved in post-transcriptional regulation of HIV-1 gene expression. Binds preferentially to the 5'-[AU]UAAA-3' motif in vitro.
