Recombinant Human ZNF41

Catalog No: #GP12508

Package Size: #GP12508-1 100ug

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description

Product Name	Recombinant Human ZNF41
Brief Description	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from 622-821 amino acids of human ZNF41
Target Name	zinc finger protein 41
Other Names	MRX89
Accession No.	Swissprot:P51814Gene Accession:BC015023
Uniprot	P51814
GeneID	7592;
Storage	-20~-80°C, pH 7.6 PBS

Background

This gene product is a likely zinc finger family transcription factor. It contains KRAB-A and KRAB-B domains that act as transcriptional repressors in related proteins, and multiple zinc finger DNA binding motifs and finger linking regions characteristic of the Kruppel family. This gene is part of a gene cluster on chromosome Xp11.23. Several alternatively spliced transcript variants have been described, however, the full-length nature of only some of them is known.
